

CLARE NORRISH INTERIOR DESIGN

Calm, timeless interiors
from concept to
completion

CHELSEA TOWNHOUSE

“Clare truly partnered with us throughout the process and was exceptional. She is worth her weight in gold

HELEN AND MARK

Clare Norrish Interior Design delivers considered residential interior architecture, guiding projects from early concept through to completion.

REIMAGINED FLOW

A carefully reconfigured Victorian townhouse, designed to improve flow throughout. The lower ground floor was completely reimagined to enhance the relationship between living, cooking and entertaining spaces. By relocating the kitchen to the centre of the plan and introducing considered architectural interventions, the design establishes a more cohesive and connected way of living throughout the home.

BESPOKE FAMILY HOME

A cohesive interior scheme and layered lighting design create a cohesive, characterful living environment defined by ease, clarity and quiet luxury

TAILORED INTERIORS

A refined interior scheme brings together personalised detailing, bespoke finishes and a carefully balanced palette of materials to create spaces that feel both calm and characterful.

From individually designed bedrooms and bathrooms to generous, open-plan living areas, each space is shaped around the needs of the family – combining comfort, functionality and a quiet sense of luxury.

MEWS HOUSE EARL'S COURT

“Clare stands out among the many designers we have worked with. Her professionalism and technical expertise are exceptional”
STANLEY, THAMES & NEWCASTLE

URBAN RECONFIGURATION

The redevelopment expanded and reconfigured the original mews building to create two generous contemporary homes defined by improved circulation, open-plan living and enhanced natural light.

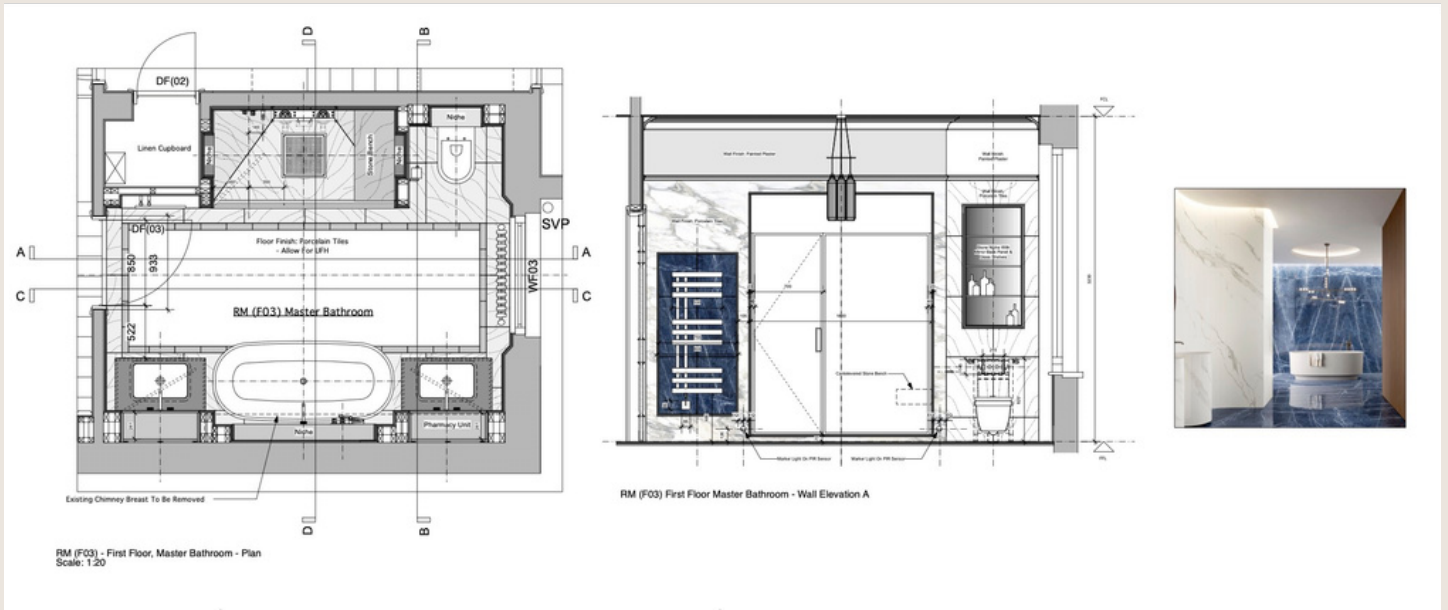

A loft-inspired aesthetic, with expansive glazing, white oak flooring and a restrained palette. Integrated lighting and audio systems, with carefully specified bespoke finishes, introduce technical refinement and understated luxury suited to sophisticated urban living.

WORKING TOGETHER

Every project is different, but our approach is always calm, considered and carefully structured – guiding you clearly from concept through to completion

01

A CLEAR, CONSIDERED PROCESS

We guide each project through a structured design journey, ensuring decisions happen in the right order and at the right level of detail – reducing uncertainty and inspiring confidence from the outset.

02

THOUGHTFUL COLLABORATION

Working closely with clients, architects, contractors and specialist suppliers, we ensure the design is carefully coordinated and consistently delivered.

03

CALM, CONFIDENT DELIVERY

From concept through to completion, our role is to simplify complexity, maintain design integrity and support you throughout the process – so the experience feels as considered as the outcome.

LET'S TALK ABOUT YOUR PROJECT

“Clare's attention to detail
is exceptional, and
the process always
feels effortless
ANDY, MD BENTIER HOMES

If you're planning a renovation, new build or interior redesign, an initial conversation is the best place to begin.

We'll take time to understand your project, your priorities and how you live, and outline how we can support you from the outset, including the appropriate level of design involvement for your project.

These early discussions are informal and focused on gaining clarity, helping you move forward with confidence.
